- No cash.
- Nominate one person from your bubble to order and pick up food.
- Distance yourself from other bubbles in queues maintaining your distance at all times
- Utilize the ground markings to help maintain appropriate distances

TIPS FOR A SUPERB DAY AT LEVEL TWO

Stay home if you feel unwell. Whatever the symptoms, take care of yourself and the community by resting up. If you arrive unwell, you will not be allowed in and neither will your group.

Practice the Ministry of Health recommended hygiene practices. We have lots of hand sanitizer and cleaning processes at the track, but we all need to do our bit: Cover any coughs and sneezes with disposable tissues, or coughing/sneezing into your elbow. Dispose of any tissues appropriately, immediately.

Washing hands with soap and water often and drying them thoroughly, especially: Before eating or handling food, after using the toilet, after coughing, sneezing, blowing your nose or wiping children's noses, avoiding touching your eyes, nose, or mouth if your hands are not clean

As well as working on our Covid health and safety plan, our general business health and safety plan has not stopped during lockdown and we will adjust and monitor as needed for compliance and effectiveness,

If you have any concerns or questions about our planned response to COVID 19 please don't hesitate to come to us in the first instance and discuss these with us.

HAVING A GREAT DAY.

SUPPORT PHYSICAL DISTANCING.
